FY21 ANNUAL REPORT

122

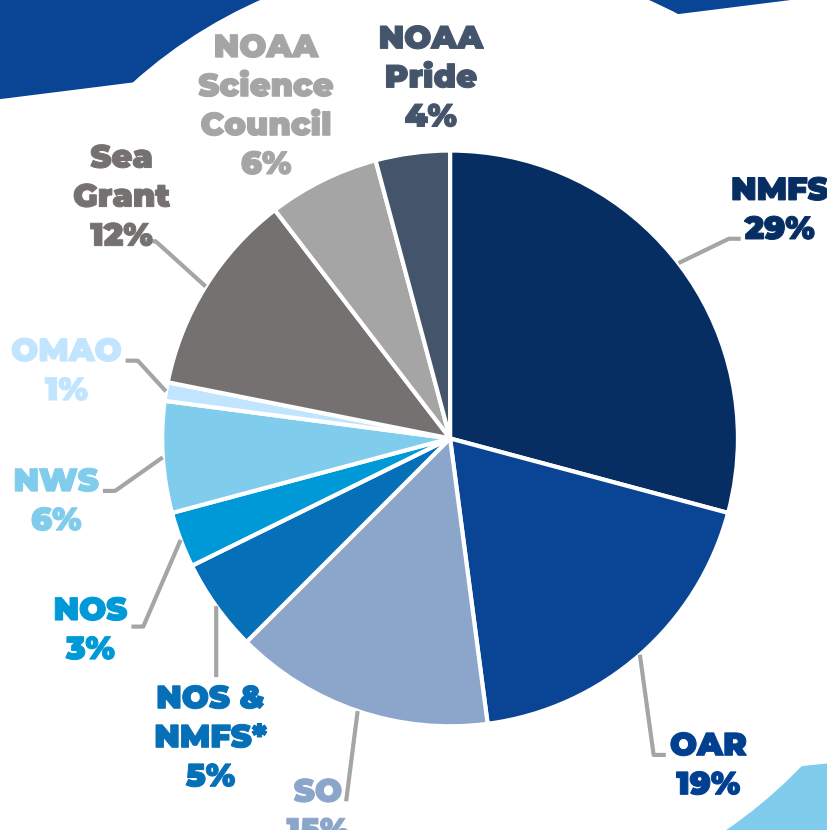

SEMINARS

NOAA Central Library Seminars hosted over a hundred seminars in FY21, providing an educational forum for the presentation of ideas, research updates, and news in support of NOAA's mission

We had over 11,000 attendees including individuals from all across NOAA and members of the public log on to view our webinars in FY21

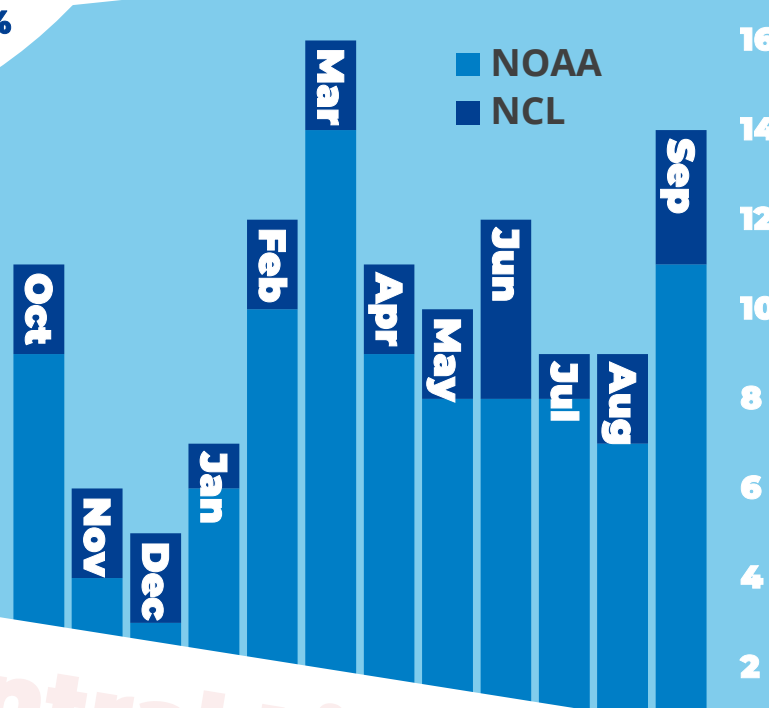

11,642

ATTENDEES

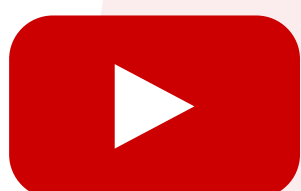

These line offices and programs sponsored and collaborated* to sponsor speakers from across all NOAA line offices and from outside NOAA in FY21

NOAA Central Library (NCL) hosted librarian-led library orientation sessions, publishing seminars, and vendor trainings

IMPACT

"This gave me ideas for a research project that I am working on."

"Hopefully, as a younger scientist, I can bring these points into my future career."

"I'm retired from NOAA and am involved in advocacy for climate change. This and other NWS webinars on climate predictions and climate change strengthen my scientific knowledge base in these areas."

"Thanks for the interesting discussion! It made me think about how to communicate more effectively with the public and diverse users."

THANK YOU!

Thanks to all of our seminar organizers, presenters, and attendees for using the NOAA Central Library Seminars service! To learn more about library seminars or to schedule a seminar, please go to libguides.library.noaa.gov/seminars
